

**REMARKS/ARGUMENTS**

*Double Patenting*

The Examiner stated in the Advisory Action that "the terminal disclaimer filed in the copending 10/676,044 application is not sufficient to overcome a non-statutory obviousness type double patenting rejection between this current application and the copending '044 application...." However, in the previous response, the applicants did not state that such other terminal disclaimer was sufficient. Rather, the applicants stated "that a nonstatutory obviousness type double patenting rejection of the present claims is not appropriate in light of the terminal disclaimer in compliance with 37 CFR 1.321(c) concerning Application No. 10/676,044 that was filed with the previous response." To clarify, please find attached another copy of the terminal disclaimer In Re Application 10/644,008 (the present application) that names Application No. 10/676,044.

Accordingly, it is submitted that the application is now in condition for allowance. Reconsideration and allowance of the application is courteously solicited.

Very respectfully,

Applicant:
